Michigan Oral Health Directory

for Individuals with Intellectual and
Developmental Disabilities

Developed by:

In Collaboration with:

Welcome

The Michigan Oral Health Directory for Individuals with Intellectual and Developmental Disabilities was created in 2021 in response to conversations with people with disabilities, their caregivers, and oral health professionals. McMillen Health partnered with the Delta Dental Foundation of Michigan, Ohio, Indiana, and North Carolina and with Project Accessible Oral Health to create a list of dentists for you and the people you care about.

Many people throughout Michigan let us know they have had a tough time finding a dentist who would work with a person who has a disability and also accepts Medicaid. We understand that individuals with disabilities often have a harder time going to the dentist because of a variety of concerns. It may be hard to get around or to communicate your needs. Lights and sounds at the dentist office can be too much if you're sensitive to them. If you are on Medicaid, it is important to know which dentists will see you.

This directory is designed with you in mind. We called dental offices in every Michigan county and asked about their services for patients with disabilities. For each office listed below, we let you know what services they offer, who they serve, and other notes that are important to you. For example, if the office goes above and beyond to make your experience better, we tell you the thing they can do to accommodate. You will see throughout this directory 'minor accommodations' listed.

Minor accommodations could include:

- Allowing patient to use a tablet
- Dimming the lights
- Turning the music on or off
- Allowing patient to wear sunglasses
- Allowing patient to bring their own speaker and music
- Providing a weighted blanket or vest
- Providing a fidget toy during visit

If the office is limited in what they can do for patients with disabilities, we let you know that too. If you or the person you support have specific needs, it is always a good idea to call ahead to ask for what you need.

You can start by clicking below on the county where you live. If your county has no office listed, be sure to check out the counties near you.

If you need help looking for a dentist or need help paying for dental services, please go to our [Statewide and Regional Services](#) page for organizations who may be able to help.
